

ROSHAN NIHAAL JAHANGEER

Software Engineer | Full Stack Developer

Abu Dhabi, UAE | +971 56 236 4218 | roshan.nihaal18@gmail.com | @linkedin | @github | @portfolio

PROFESSIONAL SUMMARY

Full stack developer with 2 years and 3 months of experience designing, implementing, and deploying scalable web applications using Angular, Node.js, and various database technologies. Proven track record of increasing application performance by 30% and reducing deployment times by 40%. Adept at collaborating within Agile teams and autonomously delivering impactful outcomes.

TECHNICAL SKILLS

- Frontend:** Angular, PrimeNG, Tailwind, SCSS
- Backend:** Node.js, Express.js
- Devops:** Docker, Nginx
- Databases:** PostgreSQL, MongoDB, MySQL, Redis
- Languages:** TypeScript, JavaScript, SQL, Python

PROFESSIONAL EXPERIENCE

Software Engineer | Viewzen Labs Pvt. Ltd.

Jul 2022 - Sep 2024

- Designed and developed multiple microservices utilizing Node.js, MongoDB, PostgreSQL, and Docker, ensuring scalability, reliability, and efficient deployment
- Developed RESTful APIs, improving performance by 30% and supporting a global user base of over 1 million.
- Played a key role in designing database models, contributing significantly to their development and optimization.
- Leveraged a stack comprising Node.js, PostgreSQL, Kafka, Docker, and Angular to achieve seamless data processing and visualization.
- Conducted code reviews and mentored junior developers, fostering a collaborative and knowledge-sharing environment.
- Executed numerous data migrations across various environments.

EDUCATION

Madras Institute of Technology

2018 - 2022

Bachelor of Technology in Information Technology

PROJECTS

OTP Authentication System | Angular, Node JS, Redis

- Developed an OTP authentication system leveraging Angular, Node JS and Redis.
- Utilized TOTP (Time-based One-Time Password) and HOTP (HMAC-based One-Time Password) methods.
- The app securely generates and verifies one-time passwords, providing a dedicated and efficient solution for user authentication.

Product Management System | Angular, Node.js, PostgreSQL, RSA Encryption

- Developed a full-stack product and category management system featuring pagination, sorting, search, CSV-based bulk upload, and report generation.
- Implemented secure authentication data transfer using RSA encryption between the frontend and backend.
- Optimized database queries for performance and ensured efficient product and category CRUD operations.

CERTIFICATIONS

- PCEP – Certified Entry-Level Python Programmer
- Google IT Automation with Python Specialization
